LEMO and the EU Regulation on Chemicals (REACH)

The new European Regulation No. 1907/2006, covering the registration, evaluation, authorisation and restriction of chemical substances (REACH), entered into force on 1st June 2007.

REACH concerns all industrial sectors as well as all the actors along the supply chain. As far as the REACH regulation is concerned, LEMO is a producer of items made from finished products. In cooperation with our suppliers and according to our supply channels we are kept informed about their procedures of pre-registration and we guarantee the safety of utilisation of the items that we supply to you.

We shall inform you about any presence in our products of a substance requiring authorisation at over 0.1% per weight as soon as the list is published on the website of the European Agency for Chemical Products (Article 33.1 of the REACH regulations).

For further information, please contact us.

René Moreillon,
Corporate Product Director
